...reduce rental turnover.  
...improve family stability.

Property owners avoid the high cost of eviction for non-payment of rent.

With turnover cost between \$2,500 and \$3,000 the cost of multiple evictions quickly add up.

Quality tenants fall on hard times with unexpected medical costs or high cost car repairs placing their housing at risk. Family stability is jeopardized by possible eviction.

There is a way to reduce turnover and increase retention of quality residents!

## **Family Success Program**

A service of Opportunity Neighborhood

## **The Family Success Program**

is an innovative program which reduces rental turnover and increases resident retention.

81% of Family Success Program participants avoided eviction and maintained their housing for an average of 2 years.

The Family Success Program saved a single property owner \$250,000 during a 2 year period.
