Opportunity Neighborhood

promotes safe and supportive affordable housing by providing family support services onsite at affordable housing communities throughout the Twin Cities.

Goals:

- Increase housing stability
- Increase community safety
- Increase opportunities for family success

To create safe and stable rental communities, our program model requires 6 program components at each rental housing community.

These 6 program components support our 3 agency goals.

All onsite services are free. Residents propose services that meet their community needs, and the services are then developed through partnerships with local schools, law enforcement and other community organizations. These partnerships bring a wealth of expertise and resources to the resident community.

We provide an essential bridge between private development, the public sector, non-profit service providers and residents in order to sustain access to housing that is not only safe and affordable, but full of community resources.

MISSION: To support people and strengthen neighborhoods within affordable housing communities, through cooperative partnerships.

If the community center and programs weren't here, I'd have no reason to stay. I would have been gone a long time ago,"

-RESIDENT

"Opportunity Neighborhood's work in affordable housing communities is priceless."

- COMMUNITY PARTNER

"The services strengthen the relationships of the residents by bringing them together as a community."
